Modern stage hypnotists use similar tactics such as asking volunteers to stare at a particular light or look at

Online Library Modern Stage Hypnosis Guide

their hands while they snap their fingers and move their hands swiftly in one direction. These techniques are known as ‘triggers’ as they can induce, or ‘trigger’ hypnosis in willing volunteers.

John Kappas attained his orientation to hypnosis from stage practice whose exponents assumed that only half the population could be hypnotized.

Through practical experience, Kappas realized that direct suggestion was resisted by the half of the population that is left-brain dominant (analytical).
